Annual Reports of the Town of Seabrook

New Hampshire

1980

For the Year Ending December 31st
As Compiled by the Town Officers

Cover: Seabrook Beach at the Turn of the Century

This photograph of the oceanfront at Seabrook Beach was taken by Jay Rodney Ball in 1902. It shows the first homes built on the beachfront, which are now located on Atlantic Avenue between Haverhill and Lawrence Streets. All remain except "The Oceanic" which burned on March 31, 1939. Mr. Ball was the owner of the home, called "The Warwick", shown on the far left of the cover. His daughter, Gertrude Humphrey, still resides here.

The wooden Mile-Long bridge and the Hampton River can be seen in the background. Strolling on the boardwalk are Mr. and Mrs. Benjamin W. Hayes, Maude R. Perry, Grace Wescott, and Harry Lakeman.

DEDICATION

The 1980 Town Report is dedicated to two women who served for many years as elected officials for the Town of Seabrook. They were Mrs. Elizabeth H. Bragg and Mrs. Florence D. Haley.

Mrs. Elizabeth H. Bragg was born in Amesbury, Massachusetts on October 25, 1898. She was the daughter of Harry Wilmot and Annie O'Brien. She moved to her home in Seabrook during the summer of 1922. She was appointed Town Clerk on November 12, 1952 to fill the unexpired term of her husband, Ralph O. Bragg -- municipal court judge and former Selectman. In March of the following year, Mrs. Bragg was elected to the office and continued as Town Clerk until her retirement in March of 1962.

Mrs. Florence D. Haley was born in Brentwood, New Hampshire on March 19, 1903. She was the daughter of Charles Davis and Lillian Neeley. She moved to Seabrook with her family in the mid-1920's. Mrs. Haley was elected Tax Collector in March of 1944 and continued in that capacity until her retirement in March of 1974. In 1959, she was elected president of the New Hampshire Tax Collector's Association.

Throughout their terms in office, Mrs. Bragg and Mrs. Haley served the public faithfully, making their offices in their own homes.

SELECTMEN'S REPORT FOR 1980

The year 1980 has seen our town progress in many ways. It has been a busy year for your Board of Selectmen, other elected officials, departments, Committee groups and personnel.

The Town Office Building Committee spent many hours with the Architect, Tambling Associates, personnel and the Selectmen to prepare plans for this building. We thank you for appropriating the funds to build this facility. It is scheduled for completion in the summer of 1981.

The Chase Homestead Committee has been diligent in their planning for the best recreational use of this property. The Allen Organization of Laconia, New Hampshire was hired to assist them in this project.

A Recreation Commission was approved at March, 1980 Town Meeting, and members were appointed. They conducted interviews, hiring a full-time recreational director, Craig Orff, to supervise our recreation program for all age groups. We will be well rewarded if the proposed new building and outside activity areas are funded in March, 1981.

A Committee to study needs for a new town-owned Police Station and Fire Station are working toward proposals for funding.

The Seabrook Pollution Control Committee is formed and will be working closely with State Agencies to research and determine our needs for sewage treatment. Funding for this project was temporarily stopped in 1980 by the U.S. Government. We understand these funds are now released and will be made available.

This year saw us without funding for improvements to our Municipal Water Supply. Our residents suffered another summer water ban, limiting their water usage. The Selectmen interviewed several Water Engineers and selected Jones and Beach of Stratham, New Hampshire, a company serving this area and one we felt would give us more individual attention. Several areas are being explored for gravel-packed wells and rock well exploration. A report will be presented to the Board in January, 1981 with projects for funding in March. We would hope our townspeople will approve of these projects. The Water shortage is presenting a serious situation that will not correct itself unless we act to correct it.

With limited funds, the Water Department personnel connected "dead-ends" from Smithtown to Pickens Ave., and Gove Road to Lafayette Road. Extensions were made on Lower Collins Street and Perkins Avenue. New water lines replaced old and troublesome lines on eight (8) streets at Seabrook Beach. This had been an annoying problem for these residents for several years. The roads were re-surfaced at the conclusion of the project.

Many old service connections were replaced; the recharge of wells #1 and # 2 was again in operation; wellhouses were painted inside and outside, with brush and trees removed in the vicinity; well property was surveyed and permanently bounded; new fencing will surround the well housing area; new hydrants painted. These men were busy with many new installations and service calls.

The Park Department proposed new monuments for the firemen and our veterans of World War II, Korea and Vietnam. With funding approved, these monuments are now installed. We plan for dedications with the American Legion and Firemen in the Spring. The beauty of these monuments is a fitting tribute to these men.

The Highway Department was busy with hot-topping several roads, laying new drainage lines, servicing the Seabrook Beach area, keeping our Cemeteries in fine condition, and excavating and gravel packing more than 600 feet on Ledge Road. We would hope funds will be granted to complete this road, opening it for easier access to the Western part of Seabrook. This would save time for emergency vehicles to reach this area.

The men of the refuse pick-up detail did a good job this year. The new packer saved return trips as it is of larger capacity. Our disposal sight has received commendations from State inspectors.

We commend our Fire and Police Department for their fine service to our people. Both Departments have on-going training programs and strive to keep their men in constant service.

We have two ambulances to serve you with men fully qualified to assist and operate emergency equipment. Their service is invaluable.

The Police Department has adopted Rules and Regulations and a full-time Juvenile Officer has been appointed. A Cadet training program was in effect this summer. Three local young people were

hired. The program worked well and will be continued next summer.

These men are well trained in Police procedures, perform a great service to our town, and meet many challenges every day and night. The men displayed great restraint under very trying conditions of yet another Protest Demonstration on our Memorial Day Week-end. We can hope their head quarters will be located in a new building at a more central location in our town.

The Board of Adjustment and the Planning Board have had a very busy year. Along with several special meetings the regular scheduled meetings have had busy agendas. The Thoresen Group was hired to assist the Planning Board with a specially funded report on the impact of the nuclear power plant on the Town of Seabrook. This will be used in a Master Plan, along with 1979's Coastal Study Report.

We share our Town Office space with several other Departments, namely the Tax Collector, Town Clerk and Town Treasurer.

Virginia Fowler, Town Clerk, works under crowded conditions. Some of her work load of research could be eliminated with more micro-filming of town records and "Readers" made available to the public.

Fred Felch, Tax Collector, has this department under good control. Because of his perseverance, our old books have been cleared of back taxes and monies turned into our town. I note here: With all monies appropriated at our town meeting in March, our tax rate dropped to a low figure. With careful spending we have realized many improvements to benefit all of us. Projects proposed for 1981 will be kept within the limit we can afford and still give us many new improvements.

Carol Perkins, Town Treasurer, is very conscientious in her position. Her records have received compliments from our Auditors. With the help of our Administrative Assistant, a program of re-investment of surplus funds has earned much interest on our money.

The Selectmen are in a position to observe our town office personnel. We couldn't ask for a more capable group of employees. Each girl performs her duties well, plus extra duties. They work well with each other in a friendly and capable manner. After minimal training they have mastered our new computer.

The Selectmen deal directly with all the departments, committees and personnel. Many hours are spent with special meetings for specific problems. James Eaton serves on the Budget Committee,

James Falconer serves on the Recreation Commission and Pollution Control Committee, and as a director on the Community Action Program and head of the Welfare Program, spending many hours at this particular job. I serve on the Planning Board, as Chairman of the Board of Selectmen and as a member of the Executive Committee of the New Hampshire Municipal Association.

We have met with our new Civil Defense Director, Frank Palazzo, to make this a good working organization; our Health Officer, Frank Valli, on health and sewage problems; the Building Inspector, Ralph Eaton, on questionable building permits; State agencies and many local groups.

The Chase Homestead building is being utilized for office space for our Recreation Director, Civil Defense headquarters, a meeting room for several special committees and offices for the Community Action Program. Selectman James Falconer was instrumental in getting the group to come to Seabrook to accommodate our people, alleviating the need to travel to Portsmouth for their services. They assist in referrals to other agencies, fuel allotments, building improvements, plus many other services. The Selectmen have asked them to inquire into a mini-bus service to aid the elderly and handicapped. The Day Care Center is a part of this program, being partially funded by the Title XX program.

We are members of the New Hampshire Municipal Association. Administrative Assistant Steve Coes, has been working with a representative of this association to perfect a Wage and Salary program for our town. This will base our employees' pay on a scale with surrounding towns and cities, allowing our employees compensation for longevity and merits earned. We have been working to this end for several years. It will be implemented in 1981.

Our town will realize Cable Television in the Summer of 81. A company was hired after assurance the entire town would be serviced. Planning routes and obtaining all necessary permits are now being worked on.

The Mosquito Program was continued this year. Robert Spencer replaced Dan Gretschi who had expressed a desire to leave this program. Reports indicate another successful year.

We've been faced with all problems and decisions throughout the year. I will list some of these:

Clearing of Rights of Ways at Seabrook Beach; Parking problems; final removal of possible hazardous wastes buried on K.J. Quinn property; meetings with New England Telephone executives (with a promise of a new system by 1983); Greyhound racing ("midnight special") special town meeting on Sunday racing; Railroad Ave. bridge problems (with a promise by the State Highway Department to level this area to a grade-crossing in 1982); forming new committees for special projects; Old Home Day meetings with Lions' Club members; Back Dune and Oceanfront dunes, with several meetings with State officials and the Oceanside Community Association; new ordinances enacted and posted; gravel operations in the western part of town with many meetings with residents of this area, Tax Payers Association and their lawyer; house numbering; zoning violations with court actions; towns peoples complaints and many other things throughout the year. We've made several trips to Concord on official business, met with the town Attorney, Gary Holmes on specific issues and listened to many reports from our many department heads.

The Selectmens' duties are many and varied. We hold many special meetings to deal with specific problems. This office is open five days a week. Special mention is made of one other person serving your needs, our Administrative Assistant, Steve Coes. We cannot stress enough his importance to this town. Many hours are spent on off-duty time, attending special meetings and working on projects for our review. His deligence to the position is exemplary. His daily presence makes the entire system work.

We thank all those who serve on Committees without compensation. Their many hours of service to the town express a genuine interest in wanting to be a part of the overall workings of our Community.

We strive to make our town function in an efficient manner. Not all goals are reached nor all problems easily solved. With cooperation from everyone, we can have a town of which we can be proud.

ASSESSING DEPARTMENT

The work of the Assessing Office for the year 1980 began with transferring all new owners of property. Along with this work all file records and maps must in turn be changed.

Mailed out the State Inventory of Property in March, had a slightly larger return and hopefully this will continue in future years.

April began a new year of appraising new construction. Spring Pick Up this year was delayed slightly, due to rainy days, which made it hard to do on-site inspection. With better than 200 additions and the Power Plant appraisal, considerable time and research went into this work.

The clerical help began work on learning to program and run the Town's new computer. They programed the 1980 Resident Tax List and ran the bills and warrant for 1980.

The largest problem of the office is keeping a list of current addresses. The sale of Mobile Homes from one individual to another is especially troublesome. It is asked that this office be contacted when such a transaction takes place. An active list of notification (dictated by State Law) and dated mailings of numerous materials require us to be constantly updated with material available to this department.

For the coming year the Assessing Department plans a new filing system, which will include a photo of each property. This will include assessment cards, building applications, sewage permits, and the like. All information that is presently filed will be placed in this new Property Portfolio File and will be a continous case history of each individual piece of property.

Respectfully submitted:

Margaret B. Weare

FIRE DEPARTMENT REPORT

I would like to take this time to thank the Board of Selectmen and all of the Department Heads, the officers and men of my Department for their help and support over the past year. I have had a very busy and challenging year, but I have enjoyed it and hope to serve you next year.

I have four men enrolled in Fire Science Class at the Vocational Technical School. I have enrolled another four men in EMT Classes.

We had a very successful Fire Prevention Program at the Elementary School. Also, we were able to color code the Fire Hydrants. I purchased some much needed equipment and have plans to replace much more out-dated hose and equipment.

I successfully completed a small building in the rear of the station to house the second ambulance. I have held monthly drills which have proven very successful to my men.

I have started a program to inspect wood stoves, furthering Fire Prevention in the Home. If any one has a wood stove that you wish to have inspected, please do not hesitate to call the Fire Department.

I will continue to strive for Fire Prevention in all areas.

Respectfully submitted,

ERNEST B. SANBORN

ANNUAL REPORT OF THE SEABROOK PLANNING BOARD

1980

The Planning Board has had a busy year, having conducted several public hearings for subdivision proposals and site plan reviews and having held numerous consultative and informative meetings. The Board also completed the zoning map which was printed in color and is available in the Town Offices at a moderate cost.

The Board has spent considerable time reviewing portions of the 1967 Comprehensive Plan which it feels is relevant in the near future and which can be the basis for our master plan. With the help of a federal grant, the Board has hired a planning consultant, The Thoresen Group, to develop a Seabrook Station Impact Study and Development Plan which will be used in the formation of our master plan. The town survey which was mailed to each household in the fall will be a vital part of this study and of our master plan. As part of this study, The Thoresen Group will draw up recommendations to aid in updating our Site Plan Review requirements to be completed shortly.

The Planning Board is asking for funds in the 1981 budget to finalize and print the Seabrook Master Plan. The State of New Hampshire has made it a "must" for all towns in the state to draw up and adopt master plans to back up zoning regulations which control growth.

The Planning Board is hoping for the cooperation and support of all residents in arriving at a fair master plan to guide and protect our town.

BOARD OF ADJUSTMENT

The members of the Board of Adjustment for the Town of Seabrook are:

Robert Kershaw, Chairman; Leon Clark, Vice-Chairman; Cynthia Marshall, Clerk; William Dolan; Albert Eaton; Arthur Miller.

The Board had six applications for variances. All six were granted. One application for a special exception was denied. One application for a rehearing was denied. Three applications for gravel removal permits were granted.

TOWN OFFICE STUDY COMMITTEE

The Town Office Study Committee continued to work with the architects through most of 1980 preparing final plans and specifications. It came as a great surprise to us when the bids were considerably more than expected, but we appreciate the cooperation of the voters in appropriating additional funds so that the building can be built. It should be completed on schedule during the summer of 1981.

1980 ANNUAL REPORT OF THE SEABROOK RECREATION COMMISSION

The members of the Seabrook Recreation Commission are Vern Small, Diana Randall, Harry Knowles, Henry Boyd, James Falconer, Charlotte Dow, and Sal Rubera. In June, the commission appointed the Town's first full-time recreation director, Craig Orff.

Programs offered throughout the year included:

A playground program was conducted for six weeks during the summer. Activities included arts and crafts, sports, a display by New England Dragway, a puppet show by a professional puppeteer, a trip to Hampton Beach State Park and many other special events.

There were approximately 225 youngsters participating in pony league, little league, and farm league baseball as well as girls softball.

The Seabrook Rams, Seabrook's entry in the Seacoast pee wee football league, were the Seacoast League champions in 1980. There were approximately 40 youngsters participating.

The Seabrook Happy Seniors Club meets monthly and has about 180 members. The group takes many trips throughout the year to such places as Hart's Turkey Farm, Ogunquit Summer Theater, Niagra Falls, and many other places of interest.

Other activities include:

Swim lessons for children were held at the Cimarron Apartments pool.

Volleyball for both men and women.

Exercise and fitness classes for women.

Basketball for men.

Ice hockey for youngsters ages 5-15.

Basketball instruction for children in grades 4,5,6.

A very successful Halloween haunted house was co-sponsored by the Lioness and Lions clubs of Seabrook.

Special programs were held for children during school vacations.

At the town meeting in 1980 the Town voted to raise \$30,000 to use in acquiring and developing land for recreational purposes. The appropriation has been used in a various number of ways including: four sets of bleachers to be used at Veterans Memorial Park; hot topping an area at Veterans Memorial Park to be used for parking as well as an outdoor basketball area and a skating area; fencing the boundaries as well as the outfield area at the new athletic field at Veterans Memorial Park; bringing in fill and seeding the outfield area at the new athletic field at Veterans Memorial Park; and for survey work done at the Farm Lane Dock area for future development.

A very special thanks goes to the Seabrook School Board, Mr. Lou Nardello, and Mr. Richard Beckman for their support and cooperation with the department in utilizing the school facilities for recreation.

Respectfully submitted, Craig R. Orff, Director

CHASE STUDY COMMITTEE REPORT

The Chase Study Committee was appointed by the Selectmen in September, 1979. The Committee met nine times from June, 1979 to March, 1980. At the town meeting in 1980, on request of the Chase Study Committee, the sum of \$25,000 was approved for a study of the utilization of the Chase property. Also at this same meeting, as suggested by the Selectmen, the sum of \$500,000 was appropriated to carry out plans as proposed by the Committee after subsequent approval by a vote of the Town.

The Committee's findings were that the Chase property be used for a recreation area suitable to the needs of all residents, young and old alike.

In April of 1980 the Chase Study Committee was reappointed by the Selectmen. The Committee met 12 times from May, 1980 to January, 1981. In June of 1980 the Study Group met with several consulting firms. The Allen Organization of Laconia, N.H. was chosen, having presented a more comprehensive plan for park and recreation for the entire town from which a preliminary plan for the Chase Property has been selected.

The Committee has offered a series of informative meetings to acquaint the Town with the overall proposal. These plans will again be explained at Town meeting. The complex suggested will include a gymnasium suitable for spectator sports, a game area, all-purpose room, offices, and meeting room. Also the back area to offer tennis courts, picnic area, nature trails and passive recreation.

The Chase Study Committee has arrived at the plans while working at times with Recreation Director Craig Orff, the Recreation Committee and the Selectmen, as well as with the Allen Organization. It is the wish of this Committee that all will benefit from this endeavor and that all will cooperate in making it a successful project.

Respectfully Submitted,
Annie R. Beckman
Secretary, Chase Study Committee

CIVIL DEFENSE REPORT

I was appointed Civil Defense Director in January, 1980 and it is my hope that this past year has marked the beginning of an effectual Civil Defense organization.

The first half of the year was devoted to learning my job, reading reams of paper-work from the State and Federal government, attending all sorts of meetings, and setting up a Civil Defense Ordinance which outlines the duties of the CD Director and all other town department heads. Under the direction of the Selectmen, the CD Director is required to develop a Basic Emergency Plan and an Emergency Evacuation Plan for all or part of the town if necessary for any reason. Both of these plans are also required by the State and Federal Governments.

I assure you that we will not be caught with our pants down, as was the case during the big snow storm of 1978. We are now prepared for the evacuation of the beach. The School Board has consented to give us the use of the school as a reception center. I have requested and received from the State 105 cots and 210 blankets which are now stored at the school. I have made arrangements with Bob Tiffany for the immediate use of a large generator and the State will back us up with another much larger generator within 3-4 hours notice, along with any other necessary equipment. Richard Beckman will serve as Shelter Manager and Principal Nardello will be on hand to look out for the interest of the school and represent the School Board. School personnel have volunteered to handle the feeding and care of the evacuees. The school nurse and town health officer will be available and communications will be in operation.

During the Demonstration last May, at the request of the police department and with the co-operation of Bob Tiffany, Gerry Frechettes and the sheriff's department, we were provided with complete radio communications to handle any situation. We provided kitchen facilities and set up sleeping arrangements. We housed the Sheriff's Department in one of our rooms which they manned 24 hours a day. CD headquarters was manned for 18 hours each day for the emergency with volunteer help, along with your CD Director.

We are in the process of setting up an emergency operation

center at our headquarters in the Chase Homestead. When it is completed, we will have communication directly with the State CD, State Police, the Sheriff's Department, local police and fire and all other necessary departments. If power is lost, we will have emergency lighting and enough power for our radios with the flip of a switch. We will also have a ham and CB radio. Most of this equipment will be in operation by the time you receive this report.

At the urging of the Selectmen, a great deal of my time and some expense was expended in forming an Auxiliary Police Organization. These groups are invaluable and extremely necessary in an emergency situation. However, the Selectmen ultimately scrapped the project. This has set us back at least two years in training time.

There are many projects planned for the coming year. I plan to have instructions for police and fire personnel in the handling of radiological equipment. We will be working with both the Police and Fire Departments on a local ordinance for the storage, handling and transporting of hazardous materials. A survey will be taken to ascertain types of materials being transported through our town. We would like to devise a way to keep this kind of thru traffic on Route 95 and away from Route 1 and other congested areas.

We will be running surveys at the beach and uptown as well to get as much input as possible to help in planning for all emergency situations.

I'd like to quote the State-prescribed duties of a local CD Director, "--upon his appointment, he becomes a town official charged with coordination of all emergency operations and local emergency resources. His authority and execution of his responsibilities are only as effective as the backing and supervision given to him by the appointing authority." Although I have had and still do have many obstacles to overcome, I shall continue to do all I can to look out for the safety of the people of Seabrook. My goal is to eventually have the manpower and resources which will give us the capability to meet any emergency whenever or wherever it may occur.

Respectfully submitted,
FRANK J. PALAZZO
Director of Civil Defense

MOSQUITO CONTROL REPORT

I am hereby submitting a report of the Mosquito Control Program as conducted in the Town of Seabrook during the year 1980:

The staff included myself as supervisor, two young lady graduates of Plymouth State College, and a young male graduate of U. N. H. All were duly examined and certified in Category F-11 Mosquito and Black Fly Control at the operational level and I was certified at the Supervisory level, as required by the State and Federal Laws (E.P.A.).

Public notices were posted in the Seabrook Post Office and Town Offices at the start of the season and the residents were further notified through the Newburyport Daily News and the Portsmouth Herald.

All known beekeepers in town were notified by personal letter and the location of their colonies duly recorded in order that they could be avoided in the spraying program.

Because of the late date of application filing by the town, the permit for 1980 was not granted until the April meeting of the State Pesticide Control Board and the larviciding of the fresh water mosquito breeding sites was delayed. By the time of the first larviciding on May 28, 1980 the spring brood (*Aedes*) mosquitoes had reached the pupal stage and a considerable number were on the wing.

Such was not the case with the salt marsh breeding sites where *Aedes sollicitans* larva were located and treated commencing on June 4, 1980 in a larviciding program which was continued through August 14.

Three (3) CDC miniature mosquito light traps were operated weekly at the same sites as in previous years. Though baited with dry ice the light traps did not provide a true indication of the level of mosquito populations and were especially ineffective in attracting *Aedes sollicitans*, a notably trap-shy mosquito. A much better indicator was the biting count method. In 1981 the biting count method of population and species indication will be employed to a greater extent in Seabrook.

The International pick-up truck used in the program was stripped of it's rusted out box and provided with a wooden platform capable of carrying in addition to the ULV sprayer, all equipment and materials necessary for a days' work in the field. This change reduced the need for private transportation and increased the efficiency of the work force.

In 1980 the spraying in Seabrook took place on sixteen (16) occasions in an eleven (11) week period as deemed necessary. The spray route within the town was identical to that of previous years. However the operators were instructed to increase the effectiveness of the application by taking advantage of wind direction and accordingly determine direction of travel along the route.

A new phase was added to the program in 1980 whereby the workers were provided identification which they presented as they travelled door to door requesting permission

to check private properties for potential mosquito breeding sites. They were surprisingly well received and located many prolific sites such as open boats, rubber tires, abandoned refrigerators and washing machines, and backyard dumping grounds. In each instance the property owners were shown how they were contributing to the mosquito nuisance and advised how to prevent future breeding.

On Monday of each week the Board of Selectmen was provided a report of the previous weeks' activities coupled with those anticipated for the week ahead.

Looking ahead to 1981 I will be retired after 25 years as a mosquito control project superintendent in Massachusetts and will be in a position to spend more time in the field with the workers. The spring larviciding work will commence in late April, a month earlier than in 1980. The mosquito light traps will be used primarily to determine the species present, while biting counts will be employed as the major indicator of mosquito population and accordingly the need for spraying. The labor force will in all probability remain at three persons in addition to the supervisor.

The pesticides employed will remain the same: Cythion 91% ULV for adulticiding; Abate 2G and Flit MLO for larviciding. It is anticipated that Abate 4-E will also be used as a larvicide.

In summary may I say that the program for the summer of 1980 was well received by the townspeople. In fact a number of long-time residents publicly expressed their satisfaction. Except for a brief early summer problem with the spring brood, the fresh water species were kept to a minimum. The salt marshes in Seabrook, because of the neglected and badly deteriorating network of mosquito ditching, are capable of producing phenomenal numbers of Aedes sollicitans. Were it not for the almost continuous inspection and larviciding of these marshes from early June to mid-August the mosquito nuisance in Seabrook would be unbearable. It is unfortunate that these mosquito ditches installed in the 1930s can not be reclaimed and maintained because of legislation regulating dredging and filling. In my opinion the mosquito control programs in the seacoast area should, under special permit, be allowed to perform the work necessary to once again employ the existing ditches in practical mosquito control. I would suggest that legislation be filed exempting mosquito control from certain provisions of the dredge and fill law.

Respectfully submitted,
Robert W. Spencer, Supervisor
Seabrook Mosquito Control

POLLUTION CONTROL COMMITTEE

The newly-formed Pollution Control Committee had its first meeting on November 24, 1980. At that time Willard F. Boyle was elected chairman and Priscilla L. Palazzo was elected secretary. Other members of the study committee include Richard E. Blinn, Warner Knowles and Selectman James Falconer (ex-officio).

Several meetings have been held at the Chase Homestead and we have sent representatives to public hearings held in other towns.

Several engineering firms have been contacted, inviting them to submit proposals to us. We'll be selecting one of these firms to do an in-depth study and a satisfactory report that could be presented to the people, as voted on in article 49 at the 1980 town meeting.

Randolph Monti, Carl Baxter, and Jim Mullins from the State Pollution Control Commission have been very helpful in guiding us and at least one of them attends each of our meetings.

We will be holding several public meetings and would like to get as much input from the people of Seabrook as possible. We do not want to rush into anything, but do hope that we will be able to put a presentation before the people at 1982 Town Meeting.

BROWN LIBRARY ASSOCIATION

Among the 1076 books bought this year was a 21 volume set of Wildlife Encyclopedia and a 12 volume set entitled "Citizens Law Library". This set is written in non-legal language and covers wills, contracts, divorce, partnerships and many other subjects. New RECI books included hardcover books for young readers. The increase in circulation was 2475 books, making a total of 8,394 books circulated in 1980. This amount does not include the hundreds of books that are exchanged in the paperback book exchange which is enjoyed by many patrons.

There has also been an increase in the number of students using the library for homework and class assignments.

Twenty-five children were enrolled in a summer reading program, co-sponsored by MacDonalds. A certificate for a free sundae was awarded to each child who read either five or ten books. Book reports were made orally to the librarians. A few of the children earned several sundaes.

Mrs. Lydia Gould used her car as a bookmobile during the summer recreational program held at the Seabrook Elementary School. Well over a hundred books were loaned during the several weeks included and many new students became patrons of the library.

The building has been insulated and storm windows installed on the bay windows. This has helped to cut the draft to a minimum and the patrons find the building very comfortable. Part of one of the old wooden book stacks was built into the children's reading area and added much needed book space. As stipulated in the original deed, the fence has been mended.

Displays in the library this year included a collection of Godey's dress prints, loaned by Mrs. Gertrude Humphrey; old Christmas cards loaned by the Historical Society and model cars and airplanes. The local Brownie Troops came and decorated for all the holidays and their creations were enjoyed by all. The copy machine has continued to be very popular with well over ten thousand copies made during the past two years.

The Seacoast Librarian Association met at the Brown Library in September with representatives from eleven towns and two from the State Library. They were greatly impressed with all the progress made at the library.

The Friends of the Brown Library are planning on having a complete set of the town records of Seabrook bound for the Brown Library. At this time, to have a complete set, any editions before 1927 are needed and would be greatly appreciated.

Many lovely books were received as Memorial gifts this year. Many patrons find this to be a nice way to give a gift in someone's memory. The Brown Library welcomes these gifts.

TOWN OF SEABROOK

AUDITORS' OPINION

We have examined the financial statements of the various funds and groups of accounts of the Town of Seabrook, New Hampshire for the year ended December 31, 1979, listed in the foregoing table of contents. Our examination was made in accordance with generally accepted auditing standards and accordingly, included such tests of the accounting records as we considered necessary in the circumstances.

As is the practice with most New Hampshire communities, the Town of Seabrook has not maintained a record of its general fixed assets and accordingly, a statement of general fixed assets, required by generally accepted accounting principles, is not included in these financial statements.

In addition, the Town has not capitalized the cost of property and equipment purchased by the Enterprise Fund (Water Department). Likewise, no depreciation expense is recorded on this fund. Generally accepted accounting principles require that property and equipment of enterprise funds be capitalized and depreciated over the useful lives of the assets. The Town's records do not permit the application of adequate procedures to enable us to determine the cost value of capital assets or related depreciation expense on them.

Because of the material effect of the omission of fixed assets and related depreciation on the financial position, we do not express an opinion on the financial statements of this Enterprise Fund.

In our opinion, the financial statements listed in the aforementioned table of contents, other than the financial statements of the Enterprise Fund (Water Department), present fairly the financial position of the various funds and groups of accounts of the Town of Seabrook, New Hampshire at December 31, 1979, and the results of operations of such funds for the year then ended in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

TOWN OF SEABROOK

AUDITORS' OPINION

The supplemental schedule included in this report, although not considered necessary for a fair presentation of the financial position and results of operations of such fund and group of accounts, is presented primarily for supplemental analysis purposes. This additional information has been subjected to the audit procedures applied in the aforementioned examination of the basic financial statements and is, in our opinion, fairly stated in all material respects in relation to the basic financial statements taken as a whole.

In connection with our examination we also (1) made a study and evaluation of the Town's system of internal accounting control, (2) performed tests of compliance with the Revenue Sharing Act and regulations as required by Sections II.C.3 and III.C.3 of the "Audit Guide and Standards for Revenue Sharing and Antirecession Fiscal Assistance Fund Recipients" (guide) issued by the Office of Revenue Sharing, U.S. Department of the Treasury and (3) compared the data on the Bureau of Census Form RS-8 to records of the Town of Seabrook as required by Section II.C.4 of the "Guide". Our findings are set forth under the heading "Comments" in this report.

Based on these procedures we noticed no material differences between Census data on Form RS-8 and the records of the Town of Seabrook for the year ended December 31, 1979.

Statement of Appropriations, Expenditures and Encumbrances. Exhibit A-4

A balance sheet disclosing the financial condition of the general fund is presented in Exhibit A-1. As indicated therein, the unreserved fund balance amounted to \$811,763 at December 31, 1979. A statement of the changes in fund balance is shown in Exhibit A-2.

Statements of estimated and actual revenues, appropriations, expenditures and encumbrances are included in Exhibits A-3 and A-4, respectively. Revenues in excess of estimates amounted to \$178,732, while appropriations exceeded expenditures and encumbrances by \$337,477, resulting in a 1979 budget surplus of \$516,209.

FINANCIAL STATEMENTS

All Special Revenue Funds

<u>Combining Balance Sheet</u>	Exhibit B-1
<u>Combining Statement of Revenues,</u>	
<u>Expenditures and Changes in Fund Balances</u>	Exhibit B-2

A combining balance sheet of all the special revenue funds is presented in Exhibit B-1. The unreserved fund balances totaled \$130,969 at December 31, 1979. A combining statement of revenues, expenditures and changes in fund balances is contained in Exhibit B-2.

All Capital Projects Funds

<u>Combining Balance Sheet</u>	Exhibit C-1
<u>Combining Statement of Revenues,</u>	
<u>Expenditures and Changes in Fund Balances</u>	Exhibit C-2

A combining balance sheet of all the capital projects funds is presented in Exhibit C-1. A combining statement of revenues, expenditures and changes in fund balances is contained in Exhibit C-2. The unreserved fund balances totaled \$63,562 at December 31, 1979.

Enterprise Fund

Water Department Fund

<u>Balance Sheet</u>	Exhibit D-1
<u>Statement of Revenues,</u>	
<u>Expenditures and Changes in Retained Earnings</u>	Exhibit D-2
<u>Statement of Changes in Financial Position.</u>	Exhibit D-3

A balance sheet, statement of revenues, expenditures and changes in retained earnings and statement of changes in financial position covering the enterprise fund, are presented in the aforementioned exhibits. As noted in the Auditors' Opinion, because of the material effect of the omission of fixed assets and related depreciation on the financial position, we are unable to express an opinion as to the fairness of the enterprise fund financial statements.

All Trust and Agency Funds

<u>Combining Balance Sheet</u>	Exhibit E-1
<u>Combining Statement of Revenues,</u>	
<u>Expenditures and Changes in Fund Balances</u>	Exhibit E-2

A balance sheet of all the trust and agency funds is presented in Exhibit E-1. A statement of revenues, expenditures and changes in fund balances is included in Exhibit E-2. The total fund balances amounted to \$123,608 at December 31, 1979.

General Long-Term Debt Group of Accounts

<u>Balance Sheet</u>	Exhibit F-1
<u>Statement of Town Debt.</u>	Exhibit F-2

FINANCIAL STATEMENTS

A balance sheet of the general long-term debt of the Town is contained in Exhibit F-1. The long-term debt amounted to \$1,272,893 at December 31, 1979. A statement of Town debt is shown in Exhibit F-2.

COMMENTS

Antirecession Fiscal Assistance Funds (ARFA)

In our previous audit report covering the year 1978, we commented on the fact that the Town had \$5,143 of Antirecession Fiscal Assistance Funds (ARFA) which had not been appropriated or expended as required by Section 52:44 of the regulations. The Town has received permission from the Office of Revenue Sharing to appropriate and expend these funds in 1980 for legal purposes.

Our comments and recommendations relative to accounting and internal control are included in a separate management letter to the Board of Selectmen.

We would like to extend our thanks to the officials and office staff of the Town of Seabrook for their assistance during the course of the audit.

Very truly yours,

KILLION, PLODZIK & SANDERSON

REPORT OF THE WATER DEPARTMENT

There were 347,127,690 gallons of water pumped during 1980, a decrease of 41,961,945 gallons over the previous year.

Industrial and commercial use decreased from 132,563,075 gallons in 1979 to 102,515,140 gallons in 1980. This 30,047,935 gallon decrease is attributed to USM Corp. - Bailey Division who had a decrease of almost 36,000,000 gallons.

We picked up 3 new commercial users (metered). These were Phoenecia Motor Inn, Women's World and Harold Hargraves who were previously on our fixed rate.

There were 41 new services installed in 1980.

The project to replace water mains at the beach which was started in 1979 has been completed this year. New water mains were installed on Lawrence, Methuen, Dracut, Andover, Lowell, Chelmsford, Nashua, Manchester and parts of Atlantic Avenue and Hooksett Streets. Eight new fire hydrants were installed and eighty-six water services were replaced, and the entire streets were paved.

A 12" water main was laid cross country to connect Route 1 to Pickens Avenue and Tra-Sea Park. This was done by obtaining easements from Tra-Sea Corp., James A. Watts and William Moore Jr. The laying of the water mains from Pickens Avenue through Tra-Sea Park, across the property of Moore and Watts and through the Hillside Cemetery to Route 1 had these advantages:

1. It eliminated dead ends at Route 1, Pickens Avenue and Tra-Sea Park.
2. It increased fire flow on these streets and part of Collins Street.
3. It made another loop to route water to the south end and beach areas of the Town. (All the water was coming through one water main on Washington Street.)

The water department hopes in the future to increase the size of the water main on Pickens Avenue to get another 12" water main to the standpipe behind the Fire Station.

There were 300 feet of water mains extended on Gove Road and tied into Route 1. One half of this project was laying mains through ledge and the road was resurfaced. This loop eliminated the dead end on Gove Road and also increased the fire flow on Gove Road.

An 8" water main was laid under Route 1 through a sleeve on Perkins Avenue and was connected to Seabrook Village, Inc.. Two new fire hydrants were installed on Perkins Avenue, which had not previously had a hydrant. This project eliminated the dead end on Pine Street and at Seabrook Village, Inc. and it also increased fire flow on Pine Street and at Seabrook Village, Inc..

The Town well fields were surveyed and bounds are to be set.

Permanent fire hydrant markers were installed on all town owned fire hydrants.

Other projects included installation of chain link fencing at Wells #1, #2 and #4, the painting of all pumping stations, the painting of all the town owned fire hydrants and installing a fire hydrant on Ashland Street.

The Civil Defense pump was in use again in the summer and fall of 1980. This pump which is used to recharge Wells #1 and #2 was not used as much this year as it was in 1979 because there was less water available due to a decrease in rainfall.

We want to thank you for the cooperation shown during the summer months for limiting outside use of water.

Respectfully submitted,

WARNER B. KNOWLES
Superintendent
